	Create passv	word

7. Click "OK" to enable Face ID authentication

8. Proceed to Securing Wallet step

Secure your wallet

Don't risk losing your funds. Protect your wallet by saving your Secret Recovery phrase in a place you trust. It's the only way to recover your wallet if you get locked out of the app or get a new device.

> Remind me later (Not recommended)

9. Review the precautions of securing your wallet -> click "Start"

Secure your wallet

Secure your wallet's Secret Recovery phrase.

• Why is it important?

Manual

Write down your Secret Recovery phrase on a piece of paper and store in a safe place. Security level: Very strong Risks are:

• You lose it

- You forget where you put it
- Someone else finds it

Other options: Doesn't have to be paper!

Tips: • Store in bar • Store in a sa	hk vault afe	
Store in mu	Itiple secret places	>
	Start	
_		

10. Write down the 12 seed phrase words on a piece of paper

This is your Secret Recovery phrase. Write it down on a paper and keep it in a safe place. You'll be asked to re-enter this phrase (in order) on the next step.

1. wy	7. wæ
2. fille	8. voinst
3. ba lcon	9. 9
	10.
5. 500	11. j ana r
6.	12. 4

11. Confirm the 12 seed word phrase by re-entering them in the correct order

12. Congratulations ! Account created successfully ! -> click Done

13. Skip the tutorial prompt -> Enter your wallet app

14. Your newly created account is shown below -> copy and paste your wallet public address "0x...." to share with others

How To Switch from Ethereum Network to Polygon Matic Network

1. From Homepage -> Click Left Top Menu icon -> Click " Settings " -> From Settings menu, click " Networks " to add a custom network

2. Click "Add Network "

3. Enter the following information, and click "Add" in order to add Polygon network:

Network Name = " MATIC Mainnet " RPC Url = " <u>https://rpc-mainnet.maticvigil.com</u> " Chain ID = " 137 " Symbol = " MATIC " Block Explorer URL = " <u>https://polygonscan.com</u> "

10 ≺ Sear):26							ul Ş)

How To Import Your Unicoin Wallet Address into MetaMask

1. Login to your UFA App -> Click on bottom-right User Profile icon to go to Profile page -> click the "Edit" button

2. Scroll down to find your Wallet address and Private Key -> Copy and Save both to a secure location (**If your Wallet Address is shown as "N/A", it means you have not yet claimed a free CZ Horse upon clicking the "Start Mining" button. You must have successfully claimed a CZ Horse in order to obtain a valid Wallet address **)

 Return to your MetaMask app -> Click Icon above Account Name to expose Account selection popup window -> click "Import Account" -> Here enter the privateKey you have just saved -> Double check privateKey entered correctly and click "Import"

4. Now You have successfully imported your CNFT Matic Wallet account on your MetaMask Wallet -> Long-Click on the default Account Name area, in order to edit and update to a custom accountName

**How to Add and Display your UNC Token **

1. Click "+ Add Tokens"

3:52		••11	? •
=	Walle MATIC Mai	t nnet	[0]
